

## TUTORIAL

### Como verificar o percentil do periódico

#### Base SCOPUS

1 – Acessar [www.scopus.com](http://www.scopus.com)

2 – Clicar em “Sources”

The screenshot shows the Scopus search interface. At the top, there is a navigation bar with 'Scopus' logo, 'Search', 'Lists', 'Sources' (which is circled in red), 'SciVal', and other account-related buttons. Below the navigation bar, there's a search bar with placeholder text 'Start exploring' and a 'Search' button. Underneath the search bar, there are tabs for 'Documents', 'Authors', and 'Affiliations'. Further down, there are sections for 'Search fields' (Article title, Abstract, Keywords) and 'Advanced document search'. At the bottom of the page, there are links for 'Search History' and 'Saved Searches'.

3 – Selecione “Title”

The screenshot shows the 'Sources' search interface. At the top, there is a navigation bar with 'Scopus' logo, 'Search', 'Lists', 'Sources' (which is highlighted in blue), 'SciVal', and other account-related buttons. Below the navigation bar, there's a search bar with placeholder text 'Enter subject area' and a 'Search' button. Underneath the search bar, there are dropdown menus for 'Subject area' (with options like 'Select area', 'Title', 'Publisher', and 'ISSN') and 'Enter subject area'. A modal window is open, providing information about the methodology changes: 'Scopus is introducing a new methodology to ensure a more robust, stable and comprehensive metric which provides an improved understanding of journal performance. The updated methodology will be applied to the calculation of CitScore, as well as to the calculation of CitScore 2017 (i.e., 2018, 2019, 2020, ...). The previous CitScore values have been removed and replaced by the new methodology.'

4 - Digite o nome do periódico a ser buscado e clique em “Find Sources”

5 – Aparecerá uma lista com os periódicos. Identifique o periódico de interesse. Na coluna “Highest Percentile” aparecerá a informação de interesse.

## Base Web of Science

1 – O usuário deve estar usando o computador na rede da FEF ou eduroam. Se estiver fora da UNICAMP, deve estar logado no VPN.

2 – Acesse <https://jcr.clarivate.com>

3 – Digite o nome ou ISSN do periódico que deseja buscar

4 – Role a tela para baixo até encontrar “Rank by Journal Impact Factor”. Procurar na coluna “JIF percentile”. Se a revista for indexada em mais de uma categoria, o percentil mais alto é considerado. A imagem abaixo se refere ao “European Journal of Applied Physiology”.

### Rank by Journal Impact Factor

Journals within a category are sorted in descending order by Journal Impact Factor (JIF) resulting in the Category Ranking below. A separate rank is shown for each category in which the journal is listed in JCR. Data for the most recent year is presented at the top of the list, with other years shown in reverse chronological order.
